	1.2	Soroush	Мессенджеры / Облачная технология	www.soroush-app.ir	<p>Attempting to control and restrict cellphone usage in today's society can be challenging and even impossible for many. Although, smartphones are highly attractive and have created enormous changes to our lifestyles, it has also created profound concerns. As a large amount of our personal information and that of those surrounding us are present within a platform, many people and groups, including manufactures of cellphones and related devices, can easily access and abuse such information. In fact, many of the features that make smartphones attractive can be tools for personal information abuse and theft. We believe that users should have the possibility in making maximum use of the features offered by their smartphones through improved communication platforms, nationalization of mobile applications and providing culture-building practices into its appropriate use. With this in mind, our mission is to provide full, accurate and secure use of cellphones through innovative solutions and products.</p>

4. Промышленное Машиностроение и Оборудования	4.1	IDEAL MAHDBAN	Интеллектуализация энергопотребления	www.mahdban.com	We manufacture products with goal of intellectualization of energy consumption. We have products such as: <ul style="list-style-type: none"> - Time attendance device, mifare card reader - Power distribution unit, smart power module, remote control active network equipment - UPS Monitoring equipment - Имитатор звука смывания унитаза.
	4.2	PAYA PRESS	Гидравлические и Механические Оборудования, Шиногибы, листоштамповочный пресс	www.payapress.com	PAYAPRESS knowledge based company is a grand manufacturer of Busbar fabrication machines, sheet metal punching and notching machines and hydraulic tools. Widespread domestic and foreign usage of our products and existence of hundreds leading electrical panel manufacturers, sheet metal working and power transmission companies motivate us to develop our design and quality continuously. PAYAPRESS's "core competency" is manufacturing wide ranges of products with high technology and economic price. Our expert engineers provide customers with technical support any time requested. Our products include: <ul style="list-style-type: none"> - Busbar Fabrication Machine - Punching and Notching Machine - Hydraulic Tools - Profile punching cutting machine - CNC Busbar Machine

<p>4. Промышленное Машиностроение и Оборудования</p>	<p>4.3</p>	<p>QESHM VOLTAGE</p>	<p>Возобновляемые Энергии / Автоматизация / Робототехника /</p>	<p>www.qeshmvoltage.com</p>	<p>More than 19 years of experience has made the QESHM Voltage Electrical and Electronic engineering company a known brand in industrial automation. QESHM VOLTAGE managed to be an official Iranian agent for SIEMENS since 2001 & for KINCO since 2009 to sell their equipment & offering engineering services in different fields of work such as industrial automation, instruments, etc. Nowadays this company has many departments including commercials, production, training, technical, maintenance & services, SSE & projects. The customers involve all kinds of industries such as oil, gas, petrochemicals, metal industries, automotive, food, cement, textile, rubber, glass, wood, paper, pharmaceutical, wire & cable industries, universities, research centers, etc. Some of our product are listed below:</p> <ul style="list-style-type: none"> - QV-PAL-4DEG-C(INDUSTRIAL PALLETIZER ROBOT) - QV-FMS-I4.0(Flexible Manufacturing System) - QV-DR-01(3 DoF EDUCATIONAL & INDUSTRIAL Delta Robot) - QV-MEC-10(Mechatronics & Robotics Educational Set-10) - QV-DX51(EDUCATIONAL PALLETIZER ROBOT) - QV-iPUCK(Educational Mobile Robot) - QV-SR(Educational Solar Mobile Robot) - QVR-QUAD-A(Educational Quadroto rotor Robot) - QV-PI-300&400-01A(ADVANCED INSTRUMENTATION EDUCATIONAL SET) - QV-PI-ADV-01(ADVANCED INSTRUMENTATION PILOT SET) - QV-SUN-2AX(2 AXIS SUN TRACKING EDUCATIONAL PORTABLE SET) - QV-PWC(Power Case EDUCATIONAL PORTABLE SET) - QV-VLV-01A(VALVE CONTROL EDUCATIONAL SET)

4. Промышленное Машиностроение и Оборудования	4.4	КАНРОБА Ind. Group	Симулятор транспортных устройств / Виртуальная Реальность (VR)	www.xsimoto.net	VR devices and Simulators manufacturer for entertainment, sports, rehabilitation and education with more than 10 years of experience. We have various types of simulators as below: - Simoto Race - Simoto flight - Simoto RC - Simoto trail - Simoto VR zone - Simoto F1
			Автоматизация Птичников	www.kgktech.com	Kontrol Gostar Kahroba (KGK) Company as a knowledge and research based company has been established according to the power and technical capabilities of its own scholars and industrial elites with aiming on production, expansion and development of systems and modern controlling algorithms in industry, especially in agriculture. This company has already gained confirmation and licenses from credible references such as National Elites Foundation of Iran, universities, laboratory units, and Iran Standard Institution. This company has been able to provide innovative samples and products based on high technology and unique quality in response to the needs and demands of the market. This shows and proves the effort of this company with its preciseness for superior and optimized products that the consumers deserve. Undoubtedly a wider prospect will be in reach by accomplishing the path of progress. KGK Company announces its readiness for studying and using any constructive suggestion and criticism from respectable experts and consumers for developing its own products and services.

4. Промышленное Машиностроение и Оборудования	4.5	NILIGO	Умные Дома / IoT Оборудования / Облачные технологии	www.niligo.com	<p>Niligo is pioneering in the Internet of Things, not only because of smart devices, software and services, but also making them cheaper and easier to use. Niligo has designed and manufactured a lot of smart devices, developed related APIs, M2M cloud and Integration service. We are working on AI of Things and will add it to our services in the next year.</p> <p>Here are some of our main products:</p> <ul style="list-style-type: none"> - Prism (IoT Lighting) - IoT Motion detector / lux meter - IoT Light Switch / outlet - IoT rice cooker - IoT Wi-Fi speaker - IoT Garage Key - M2M cloud service, Integration cloud service
	4.6	Maral Robot Sanat (MRS)	Оборудование для изготовления печатных плат	www.maralrobot.com	<p>MRS is an SMT manufacturer with its development and production site in Iran. We produce SMD Pick and Place Machine, SMD Reflow Oven, Semi Automatic solder paste printer, and also SMD Modular flood lights. We are the first and only SMD producers in the wesr area of the Asia.</p> <p>We're looking forward to find a reliable distributor in Russia and Export of products. . Also we want to have technological cooperation with Russian Companies because of our professional R&D team.</p> <p>Our main products are as below:</p> <ul style="list-style-type: none"> - SMD Pick and Place - SMD Reflow Oven - Semi-Automatic Solder Paste Printer - Conveyor - Modular SMD LED Flood Light - LED Street Light

4. Промышленное Машиностроение и Оборудования	4.7	CFP Co	Спектрометры / хроматографические системы / Спектроскопы / Анализ Радиаций	www.cfp.co.ir	<p>Control Farayand Pasargad (CFP), a privately held company founded in 2005 by a group of elites approved by the National Elites Foundation, produces high-tech products and provide various solutions in four main categories. Our main product categories include Radiopharmaceutical purity measurement systems, robotic systems (especially social robots with high levels of interaction with human based on Artificial intelligence) and radiation based analysis softwares. CFP Company comprises 6 main groups namely industrial design, mechanics, electronics, signal processing and analysis, software and trading. We also provide various industrial and commercial solutions from which we can point out mine exploration, radiation environmental monitoring, radiation personal protection, underwater radiation monitoring, laboratory radiation measurement, Purity measurement for pharmaceuticals, social robotics and artificial intelligence solutions robot-human interactions.</p> <p>Some of our products are as below:</p> <ul style="list-style-type: none"> - SPECT2113 and SPECT2116 (Gamma radiation spectrometers) - SCINT2213 and SCINT2215 (Gamma radiation Scitillometer) - RTLC2118 and RTLC2419 (Radio thin-layer chromatography system) - SRobot2119 (Intelligent social robot) - PD2318 and PD2319 (Personal dosimeter) - PRM 2415 (Portable radiation monitoring system) - UWGRS2116 (Underwater spectroscopy system) - FIGA2316 (Spectroscopy system for food inspection) - ABS2218, LABS2615, LGBS2715, LGS2515 (Different rays and particles spectroscopy systems)
	4.8	R.S.H.A.	измельчитель металлолома / молотковая мельница	www.radissanat.com	<p>The R.S.H.A. company produces shredding machines for heavy industries to complete the recycling loop of metal from copper wire to steel scrap. We do every aspect of the project from design to manufacture and asseby from A to Z.</p> <p>Some of our products:</p> <ul style="list-style-type: none"> - Scrap Metal Steel Shredder and Hammer Mill - Scrap Cars Copper wire shredder and briquetter

4. Промышленное Машиностроение и Оборудования	4.9	NOURSUN ENERGY	Возобновляемые Энергии	www.noursun.com	<p>Noursun Energy Aria Co. established as an Iranian knowledge-based company in 2011. Noursun founders are a team of expert talented engineers with a remarkable background in fields of Energy Management and Renewable Energies.</p> <p>Noursun performed several projects successfully and provided a vast range of different services for clients in recent years. Customers are satisfied by Noursun services and they trust on Noursun update knowledge and high experience.</p> <p>Today, Noursun is recognized as the pioneer and leading company in business of Energy Management and Renewable Energies in Iran.</p> <p>We provide services as below:</p> <ul style="list-style-type: none"> - Project Development: Based on state of art technology, Noursun consider all regulatory, technical and economic factors when developing solar PV projects. - Finance Studies & Financing: Noursun assists clients in obtaining finance resources and maximizing their return from clean power investments. - Engineering, Procurement and Construction: Noursun specialized in comprehensive EPC solutions for clients. Noursun initial expertise is focused on maximizing energy yields through superior design and high quality component selection. - Operation & maintenance: Over the lifetime of solar PV plant, Noursun continuously optimize performance by maximizing power generation and minimizing downtime through comprehensive O&M services.

Промышленное Машиностроение и Оборудования	4.11	TISFON Engineering	Упаковочные оборудования / Машина кремовой начинкой мягкий наполнитель трубки	www.tisfon.ir	<p>FOROHAR TISFON Engineering Company is stabled with the aim of meeting the company's industrial needs in packing machines manufacturing with using of technical knowledge.</p> <p>This company is one of the most dynamic units in the private sector specialized in manufacturing packing machines. we are able to design and manufacture our customer's required packing lines based on up to dated world standards and having regard to the specific needing's of customers.</p> <p>Our products are as listed below:</p> <ul style="list-style-type: none"> - Automatic tube filling machine - Semi-automatic filling machine - Vertical compact cartooning machine - cartridge filling machine -Mixer.
	4.12	FAKOOR Magnetic Spadana	магнитный сепаратор барабанного типа / барабанный грохот / Оборудования для горного дела	www.fms-co.com	<p>Fakoor Meghnatis Spadana Co. is comprised of a number of specialized and highly motivated groups which embarked on designing and manufacturing of magnetic and conveying equipment since 1992. Having engaged efficiently over two decades in designing and manufacturing of magnetic and vibrating equipment.</p> <p>Our main products are listed below:</p> <ul style="list-style-type: none"> - Magnetic Drum Separators - Roller Screen Machines - Roller Feeder Machines - Vibrating Screen Machines - Vibrating Feeder Machines - Conveyor belt

4. Промышленное Машиностроение и Оборудования	4.13	ARYA SARMAYESH	Испытательные Оборудования / Испытательные Термокамеры, Климатические Камеры	www.aryasarmayesh.com	With a 50 years history in producing cooling systems, we're proud to introduce our Various TESTING CHAMBERS as below: <ul style="list-style-type: none"> - Temperature Test Chambers - Climatic Test Chambers - UV Chambers - PV Chambers - CHILLER - OVENS and DRYERS
	4.14	Fars EOR Technologies Company (FETCO)	Оптимизация Добычи Нефти / Производство Лабораторных Оборудований	www.fet-co.com	Fars EOR Technologies Company was established in 2009 at Fars Science and Technology Park with more than two decades of continues and long term scientific and research background at Shiraz University and Sharif University of Technology. This company has been active in the field of design and manufacturing of advanced petroleum engineering laboratory equipment. Completing the chain between knowledge and industry, Fars EOR Technologies in its pathway joined Shiraz Technology Park of Chemical Industries. Continuous innovation and extensive R&D with industrial exploitation turned this company into a leading company with numerous outstanding achievements to date. FETCO group was established in November 2018 at Shiraz Industrial State with the goal of boosting focus on past activities, breaking into new markets, providing new services based on state-of-the-art technologies, and finally stabilizing as knowledge-based industrial group. The essential of FETCO group is based on customer satisfaction through creating and maintaining a real honest business atmosphere. Dynamic members of FETCO group are looking for continues improvement with stable growth and development with respect to moral principles, all leading to make valuable contribution in serving our homeland.

4. Промышленное Машиностроение и Оборудования	4.15	SEDNA Co	Умные Дома / IoT Оборудования	www.sednaco.ir/en	<p>Sedna Co. entered the field of activities and competitions in order to offer the most optimum and valuable services to customers, being itself customer-oriented. So far, it has managed to meet important requirements of facilities and lighting industry of Iran in order to decrease energy consumption for 25%. Attempts, made by this group, has led to frequent product exports and financial exchanges. Sedna Co. is active in terms of making BMS products, which is exclusively in the hands of European and American companies. It even has managed to localize some products of this area in Iran, producing them with a very high value added and presenting them to Iranian construction and facilities industry. Accordingly, Sedna products are designed jointly by the University of Tehran and the University of Eindhoven, the Netherlands. The production capacity of Sedna Electronic Co. is 200 thousand devices annually.</p> <p>Smart thermostat (Volcan) and smart lighting controller (Sun) are some of Sedna Co.'s products. Right now, these products have received the attention of Iran's air conditioning as well as lighting industries companies. Vulcan and Sun have led to some 70% financial saving and are capable of being exported to the neighboring countries.</p> <p>We have also some products like:</p> <ul style="list-style-type: none"> - Smart wifi thermostat - Smart wifi switch - Smart wifi IOT thermostat - Rccb switch

<p>5. Высокотехнологические Материалы</p>	<p>5.5</p>	<p>VIJEGAN</p>	<p>Мастербатч / Полиэтиленовые трубы / Высокотехнологические Материалы</p>	<p>www.vijegan-baspar.com</p>	<p>Vijegan Baspar has the aim of supplying raw material of polymer products such as polyethylene pipes used for under pressure irrigation, coated telecommunication cables, automotive parts, injection parts and so on. In 2015 the company began manufacturing polyethylene pipes in new site. Now the company has three separate production halls, as follows: F1: Production of carbon black masterbatch that is used for under pressure polyethylene pipes. F2: Production of various kinds of polymer compounds. F3: Production of various types of polyethylene pipes from size 16 to 400 mm Nowadays, the know-how of production of polymer compounds and polymer alloys is completely confidential and access to it requires undertaking research projects. Therefore, in order to achieve these goals, the company has set up a Polymer Research Center and a specialized library and provided technical archives in order to be able to design and produce various compounds according to the needs of the customer and in accordance with national and international standards, and on this basis the company was introduced in March of 2016 as a knowledge-based company. Some of our products consist of: Black HDPE Classified as PE100 Black HDPE Classified as PE80 Yellow HDPE for Gas Pipe Stripes Black LDPE Compound for Telecommunication Cables Black LDPE Compound for Irrigation Pipe Black Masterbatch for HDPE Pipe Blue Masterbatch for HDPE Stripes Yellow Masterbatch for Inner Layer Carogated PE Pipes. Black HDPE for steel pipe coating Different Kinds of Polyethylene Pipes from 16 up to 400mm in 2.5 up to 25 Bar for Water Supply & sewage System Different Kinds of poly ethylene pipes for gas supply.</p>
